

JAISHREE K S

Aspiring Software Engineer | Python & MERN Stack

Bengaluru, India | +91 7624945573 | ksjaishree2005@gmail.com | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Information Science student with a **9.38 CGPA**, **Smart India Hackathon (SIH)** participant, and **HackerRank Silver Badge** holder in Python. Hands-on experience with **Python, Java, and Machine Learning** through academic and personal projects, plus practical **MERN stack development** experience from a Webstack Academy internship. Looking to build real-world, scalable software applications.

SKILLS

Technical Skills: Python | Java | C (Basic) | Flask | HTML | CSS | React.js (Basic) | MongoDB | REST APIs | JWT Authentication | Git & GitHub

Competencies: Problem Solving | Adaptability | Quick Learning | Time Management | Analytical Thinking

EXPERIENCE

Webstack Academy (WSA), Bangalore — MERN Stack Development Intern

Jun 2026 (4 weeks)

- Selected for a competitive, cohort-based **MERN Stack Development** internship (Cohort WMSI26_007), an initiative to build foundational skills in Full Stack Web Development.
- Completed structured, hands-on modules covering **MongoDB, Express.js, React, and Node.js** through weekly assignments and quizzes.
- Maintained **consistent attendance and on-time project report submissions** as part of the internship evaluation process, successfully clearing the program requirements.

PROJECTS

Smart Department Portal (ISEHub)

Academic Project

- Engineered a **department management portal** for students and faculty, streamlining day-to-day department operations.
- Implemented **student login and authentication** for secure, role-based access.
- Centralized department announcements and academic information into a single, always-current portal.
- Architected the backend using **Flask** with **JSON-based data storage** for lightweight, fast data access.

Tech Stack: Python, Flask, HTML, CSS, JavaScript, JSON

Bitcoin Price Prediction using Machine Learning

Academic Project

- Designed a **machine learning pipeline** to predict Bitcoin closing prices using historical market data.
- Performed data **preprocessing, feature selection, and model evaluation** to improve prediction reliability.
- Trained and compared **Linear Regression, Decision Tree Regression, and KNN Regression** models; **KNN Regression achieved the strongest performance (RMSE $\approx$ 305)**, outperforming Linear Regression and Decision Tree baselines (RMSE $\approx$ 440 each).
- Deployed the model as an **interactive Streamlit web dashboard** with **Plotly** visualizations for real-time price prediction and trend analysis.

Tech Stack: Python, Pandas, NumPy, Scikit-learn, Matplotlib, Streamlit, Plotly

OrderIt — Online Food Delivery Platform

Personal Project

- Independently built **OrderIt**, a full-stack online food ordering and delivery platform, using the MERN stack.
- Integrated **Groq AI** to auto-generate food item descriptions and analyze customer reviews, adding AI-driven content to the platform.
- Implemented end-to-end **checkout, payment processing, and order confirmation** using **Stripe**.
- Designed the data layer with **MongoDB** and built the client-server architecture using **React, Node.js, and Express.js**.

Tech Stack: MongoDB, Express.js, React, Node.js, Groq AI, Stripe

ACHIEVEMENTS

- Participated in **Smart India Hackathon (SIH)**.

- Earned the **Silver Badge in Python** on HackerRank.

EDUCATION

Don Bosco Institute of Technology, Bengaluru — B.E. Information Science and Engineering *2023 – 2027*
CGPA: 9.38

MES PU College, Bengaluru — Class XII *2023*
Percentage: 92.6%

Ravi English School, Bengaluru — Class X *2021*
Percentage: 83.36%

CERTIFICATIONS

- Python (Basic) – HackerRank
- Python for Data Science – Infosys Springboard
- Introduction to Artificial Intelligence – Simplilearn
- Software Engineering – NPTEL
- Cloud Foundations – Great Learning

RELEVANT COURSEWORK

Data Structures & Algorithms | Operating Systems | Database Management Systems (DBMS) | Computer Networks | Object-Oriented Programming (OOP) | Machine Learning | Web Development

ADDITIONAL INFORMATION

Languages: English, Kannada

Interests: Machine Learning, Artificial Intelligence, Software Development
